

# WHITLAM PAINT

## SUPER-COVER TURF GREEN COLORANT

The fastest and most economical way to restore dormant or discolored turf. **SUPER-COVER** Turf Colorant is a green pigmented coating which is safe for turf grass and can be applied at virtually any time during the year.

- **Designed to Withstand Heavy Traffic**
- **Great for Golf Courses & Sports Turf**
- **Cost Effective - Long Lasting**
- **Dilute up to 15:1 (water to colorant)**
- **Biodegradable\*, Non-Hazardous**

### USAGE:

**SUPER-COVER** Turf Green Colorant brings the look of life back to dormant or damaged turf. Great for Athletic Sports Fields, Golf Courses, Home or Commercial Landscapes. Works excellent when mixed with sand based golf course divot mix to create green fill. Also used in hydro-seeding. Dilute up to 1 part paint, 15 parts water.

### TEMPERATURE RANGE USE:

25°F (-4°C) to 120°F (49°C)

### AVAILABLE SIZES:

Stock #	Size
SCG32	1 Qt. (.95 L)
SCG1	1 Gal. (3.785 L)
SCG5	5 Gal. (18.9 L)
SCG55	55 Gal. (208 L)

BEFORE

AFTER

**Safe for  
Home Use!**

### Longer Roll...

When fairways are painted with **SUPER-COVER** Turf Green Colorant, the turf will give a longer ball roll distance when compared with over-seeded turf mowed at the same height. When painting natural grass sports surfaces, **SUPER-COVER** will not transfer color to equipment or uniforms. **SUPER-COVER** provides a more aesthetically appealing playing surface overall.

\*When diluted, the BOD5/COD ratio is >0.5 which suggests that this product is readily biodegradable. This normally allows the solution to be water flushed down sewers. Check with local ordinances and regulations in your area prior to disposal.
