

TALON HDPE DRAINPIPE ADHESIVE is a fast-setting adhesive that is formulated for bonding most all types of plastic drainage pipe.

TALON HDPE DRAINPIPE ADHESIVE is excellent for bonding high-density polyethylene (HDPE) drainage pipe, perforated sewer drainpipe, smooth wall HDPE sewer and drainpipe, standard and heavy-duty smooth wall polyethylene (PE) drainage pipe, triple wall solid HDPE pipe, triple wall perforated HDPE pipe, styrene drainage pipe, dual wall storm drainage pipe as well as bonding PVC to HDPE drainage pipe. Once fully cured, **TALON HDPE DRAINPIPE ADHESIVE** creates a permanent watertight seal to prevent root intrusion at the joint.

Excellent for bonding Foundation Drains, French Drains, Perimeter Drains, or Footer Drains to prevent separation when backfilling. Not recommended for pressure systems.

AVAILABLE SIZES:

<u>Stock#</u>	<u>Size</u>
DPA16	Pint (473 ml)

COLOR/CONSISTENCY

Black / Viscous Liquid

TEMPERATURE RANGE USE

0°F (-18°C) to 120°F (49°C)

TALON™

HDPE DRAINPIPE ADHESIVE

MADE IN U.S.A.

- **Fast Dry**
- **Excellent Adhesion**
- **Creates a Watertight Seal**
- **Protects Against Root Intrusion**
- **Prevents Backfill Separation**

TALON HDPE DRAINPIPE ADHESIVE is a quick drying, liquid rosin and terpolymer based adhesive formulated to adhere Triple Wall HDPE, PVC and Styrene Non-Pressure Drain Pipe. It has excellent bonding strength that prevents drain pipe from separating when back filling with rock or dirt. Creates a watertight seal to prevent leakage and root intrusion in the drainage system.
