BLACK FLASH

FLASHING CEMENT COMPOUND

BLACK FLASH Flashing Cement Compound is a professional grade fibered asphalt cement that is non-hardening and stays pliable in any weather condition. Provides a water-proof and airtight barrier immediately on application. Won't crack at any temperature and can be applied to wet or dry surfaces. Always best to remove standing water, but **BLACK FLASH** will adhere to clean asphalt surfaces that are underwater. A superior compound that offers long-lasting performance. Meets ASTM D4586.

BLACK FLASH Flashing Cement Compound is a heavy mastic that is used for sealing around flashings, downspouts, gutters, chimneys, soil pipe, concrete pipe, and concrete vaults. Excellent for repairing leaks in roofs, gutters and old flashings. **BLACK FLASH** has excellent adhesion. Adheres to metal, plastic, concrete, glass, and wood.

RECOMMENDED USES:

Excellent for sealing the following:

- Chimneys and Flashings
- Corrugated Roofs
- Clay Roof Tiles
- Gaps in Flat Tarred Roofs
- Roof Shingles - All Types
- Solar Panel Installations
- Gutters and Downspouts
- Skylights and Roof Vents
- Concrete Pipe
- Concrete Vaults
- Concrete Manhole Cones
- Storage Containers
- Iron Soil Pipe

Excellent for wastewater immersion and wastewater wet wells, pump stations, manholes, and excellent for acid/corrosion protection with a pH range of 3-10.
